Rubber Vacuum Hose

HyVac has a variety of vacuum hose and tubing for sale. The hose is more expensive than the vacuum tubing, which we have also, but it is the historical standard for vacuum work. Our product is a wrapped gum rubber hose with the highest quality level. We only sell the thickest available wall and “cloth wrapped” hose in this category. We guarantee it. This level of assurance gives the user the highest quality and best dimensional characteristics over other types of “vacuum hose”. Do not be deceived by a thinner wall or “just extruded” product. This is the premium stuff.
