PressoVac
Diaphragm
Vacuum
Pumps

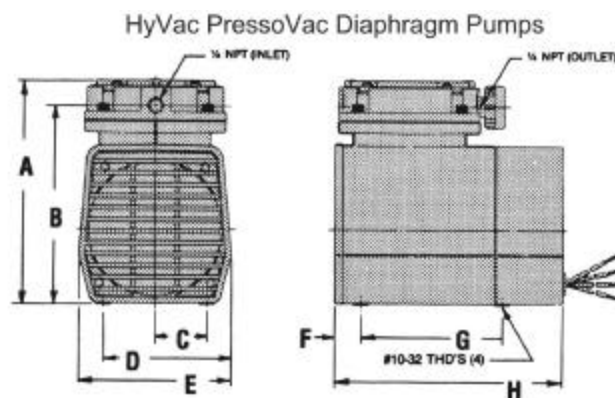

HYVAC PressoVac diaphragm pumps are modern, intermittent duty, diaphragm medium vacuum pumps featuring a clean, functional design, which provides high performance. They are portable and quiet. They are suitable for work to 25" of mercury vacuum (125 mm Hg). They are a good choice as a general duty vacuum source or for vacuum filtering or other applications where water contamination may be a problem. The diaphragms are replaceable and chemically resistant configurations are available to deal with other types of contaminated vacuum applications. They are oil free pumps. Pumps include rubber isolation feet and electrical cord. Pumps listed are 115V/60Hz. Other electric configurations are available, including 12 and 24 VDC.

97000-001 PressoVac 24 Diaphragm Vacuum Pump Ultimate vacuum is 26 inches of mercury vacuum and pump has a free air flow capacity of 31 liters per minute (1.1 CFM). 1/8 HP motor and 1/4" FNPT ports.

97000-003 PressoVac 55 Diaphragm Vacuum Pump Medium sized pump will displace 51 Liters per minute (1.8 CFM). 1/3 HP Motor and 1/4" FNPT ports. Vacuum to 25" Mercury.

97005-001 PressoVac 62 Diaphragm Vacuum Pump Larger pump will displace 62 Liters per minute (2.2 CFM). 1/4 HP Motor and 1/4" FNPT ports. Vacuum to 25" Mercury.

97006-001 PressoVac 100 Diaphragm Vacuum Pump Larger pump will displace 100 Liters per minute (3.6 CFM). 1/2 HP Motor and 1/4" FNPT ports. Vacuum to 25" Mercury.
